MULTIFUNCTION TABLET

DESCRIPTION

Multi actions solid compound (disinfectant, flocculant, antiscald and algacide), specially formulated so just one application eliminates bacteria, viruses and micro-organisms in general, prevents the development of algae and keeps the water transparent and crystal-clear.
High concentration in slow dissolving chlorine.
Destroys algae and prevents its development.
Improves filtration by flocculation.

CHARACTERISTICS

- **Physical State:** Solid
- **Appearance:** White Tablet with blue points
- **Odor:** Slight chlorine odor

INSTRUCTIOS FOR USE AND DOSAGE

Between 800 and 1000 gr for every 50 m3 of water will maintain correct chlorination for approximately one week.
Place the tablets in the skimmer. In the case of having a dispenser, fill it out and locate the opening such that the product is released in the amount needed to maintain chlorine levels and pH within the recommended values (see section COMMENTS)

COMMENTS

- Water pH values must be between 7,2 and 7,6. This parameter should be checked daily
- Chlorine Index must be between 0,5 and 1,5 mg/l
- The recommended dosages are approximate and depend on factors such as hardness of water, number of bathers, meteorology, etc

PACKAGING

Different packages from 1 Kg up to 50 Kg.
Different possibilities can be studied in a personalized way
